INTRODUCTION

I am **curious**, **organized** and **meticulous**, with a strong **team spirit**. Thanks to my experience in many projects, I am able to build a website alone or in a team.

PROFESSIONAL EXPERIENCES

Mobile JS development - ZestMeUp (internship) **jan. - june 2019**

6-month internship as a mobile front-end profile in the ZestMeUp startup. Refactoring of the mobile application using the **agile method**. Project realized with **React Native** and **Redux**.

Front-end development - Radio France (internship) **feb. - sept. 2018**

6-month internship as a front-end profile. Refactoring of the Mouv' station website (mouv.fr) according to the **agile method**. Project realized with **ReactJS**, **Typescript**, **Redux** and **GraphQL**.

Full-stack dev. - Octelio Conseil (internship) **may - sept. 2017**

4-month internship as a full-stack profile in an agency. Missions of integration, emailing updates, and refactoring of a web site with **Symfony 3** including user and administrator interfaces.

EDUCATIONAL PROJECTS

Graduation project - Project leader **in progress**

Elaboration within 21 months of a mobile application based on an economically viable concept. Collaborative work between the development, design and marketing sectors. Built with **React Native**.

Project « How to Vegan » - Lead dev **may 2017**

Elaboration within 3 months of a website based on an economically viable and educational concept of transformation from a traditional diet to a vegan diet. Collaborative work between the development, design and marketing sectors. Built with **JavaScript**, **PHP**, **Sass**, and the **Google Maps API**.
